

IPBES CONCEPTUAL FRAMEWORK

- **Scaffolding/skeleton/ storyline** - **Description** of the main elements and interactions underpinning all four functions of IPBES;
- **Road map** - **Guidance** for the different activities, ensuring their consistency and facilitating their “fitting together”;
- **Catalyst** - Instrument for **change** (IPBES needs to make a difference)

DESCRIPTION – STRUCTURING - TRANSFORMATION

Major outcomes from the CF on-line consultation

- Very little feedback from ALC countries
- Strong economic bias
- Need to find a compelling, user-friendly graphic representation and narrative
- More emphasis on a variety of property rights and access to ES
- Need to include more specifically
 - Intrinsic and non-instrumental values of BD
 - Less utilitarian views of nature (views from different knowledge systems, nature as source of innovation)
 - Other forms of valuation of ecosystem services

Your feedback during this meeting

- . **Highly necessary and very welcome;**
- . Bear in mind the main goals of CF;
- . Suggestions as concrete and specific as possible.
- . Send (ideally soon!) to:

secretariat@ipbes.net

Subject: CF comment
