Urban transformations

- Comparisons of global cities and the challenge of social housing and communities = different models of delivery of social housing/community

Cf London (economic driver of housing need) with SP + Mexico + ? (community need)

`City to favela/comunidades; people to city´

Governance/control of land and resources (drivers of change)

aspirations of people (participatory roles)

(a) social housing and (b) public/open space (research lens)
opportunities for urban transformation

keywords:
location, security, mobility, open space, sustainability

taking forward to research proposal:
selection of comparive locations within cities
share methodology on aspirations/local evidence
larger proposal
