

Life Cycle SDG assessment of sustainable solid biofuels in Brazil and Europe

Prof. Dr. Diogo A. Lopes Silva

UFSCar – Universidade Federal de São Carlos

Departamento de Engenharia de Produção de Sorocaba

Type of partnership

- Looking for an international partner (institution) for this joint research;
- The idea is to continue the efforts on mapping the life cycle inventory (social and environmental) of pellets and briquettes in Brazil (FAPESP process number 19/16996-4), but also in expanding the research for the Netherlands/European context as well;
- Performing a comparative benchmarking based on integrated sustainability approaches application (e.g., E-LCA, Social LCA, LCC, SDGs).
- Indicate environmental political implications for the bioenergy sector taking into account the SDGs.
