Guideline for Meeting Organization
Introduction

The FAPESP Week series have created opportunities and facilitated research collaboration between researchers from the state of São Paulo, Brazil, and colleagues from around the world. Nineteen FAPESP Weeks were held between 2011 and 2019 (http://fapesp.br/fapespweek/). FAPESP Weeks are organized by FAPESP and partners in the local country/region. They may be based in a single institution/city or two or more institutions/cities in the same region/country.

Before the pandemic, two to three FAPESP Weeks were organized per year, under approval by the Superior Council of FAPESP.

Each FAPESP Week brings together leading young and consolidated scientists from São Paulo, Brazil, and colleagues from the target region, in academic sessions with presentations and debates on scientific results relevant to the regions and likely to stimulate research, networking, matchmaking and innovation collaboration.

This guide contains templates to be used in the organization and communication of FAPESP Weeks.

1. **Presentation about FAPESP Week: Principles and Practices**

This document details FAPESP Week's purpose and organizational principles, used to introduce the event proposal and negotiate organizational responsibilities with partners.

**FAPESP WEEK**

**PRINCIPLES AND PRACTICES**

The FAPESP Week Symposia – FW have been creating opportunities and facilitating research collaboration between researchers in the state of São Paulo, Brazil and colleagues around the world. Nineteen FAPESP Weeks have been held from 2011-2019 ([http://fapesp.br/fapespweek/](http://fapesp.br/fapespweek/)). FAPESP Weeks are organised by FAPESP and partner(s) from the local country/region. Two to three FAPESP Weeks are organised per year, subject to approval by FAPESP’s Board of Trustees.

Each FW brings together outstanding scientists from São Paulo Brazil, and colleagues from the target region, in academic sessions with presentations and debate about advanced scientific results relevant to the regions to stimulate research collaboration and networking, inclusion of young researchers in structured and emerging areas of research.

I. **Format**

Total duration of the symposium: two to three days depending on individual conference organisation. One day is comprised of technical visits by the Sao Paulo delegation to local state of the art research and innovation infrastructure/laboratories. Two days are dedicated to an open seminar with six scientific panels. Each panel should have one moderator, two speakers from Sao Paulo and two speakers from the host country/region.

Each seminar should also have institutional presentations of FAPESP and of the local partner with an overview of the science and innovation landscape of the country/region or institution. One to two roundtables should be organised in topics that can be relevant to science policy, science communications, international collaboration etc. FAPESP Weeks are usually conducted in English, without simultaneous translation.

II. **Audience**

The audience of FAPESP Weeks is comprised of researchers in all areas of science, research funders, representatives of scientific societies, research funding organisations, academies, companies and policymakers in the science and innovation field.

It is best practice to identify and invite representatives from institutions’ International Relations departments in charge of replicating/disseminating collaboration opportunities to the university/research community.

Due to the interdisciplinary aspect of FWs, it is expected that some participants will attend only parts of the event. Expected audience is of 50-100 participants in the room at all times.
III. Organising Committee

The Organising Committee consists of:
- Scientific aspects: one representative from FAPESP, and one representative from the local partner, who will decide together the scientific content and speakers of the meeting;
- Organisation aspects: one representative from FAPESP, and one representative from the local partner, who will discuss local event logistics and details of the event’s organisation.

The Organising Committee will nominate and approve session speakers, organise travel and participation and explain the outline and expectations of the event for their respective countries.

IV. Speakers

Selected speakers should be fluent in English, and able to present their science to non-experts in the field. Ideally, the speaker already has or is interested in establishing cooperation with Sao Paulo/local region/partner on his behalf but also widely on behalf of his/her research group. It is expected that they help in dissemination of the event and recognise any FAPESP financing during the event.

V. Responsibilities

i. FAPESP
- FAPESP will organise travel expenses for all speakers from the State of São Paulo;
- FAPESP will produce a website for the event, including an event logo, online program and registration form;
- FAPESP will produce an online invitation for the event, and design all other publishing materials for FAPESP Week;
- FAPESP will organise technical visits, relying on suggestions by the local hosts.

ii. Local Partner
- The Partner will be responsible for local venue organisation, such as ensuring a high quality event venue, appropriate equipment and contracting and managing local service providers;
- The Partner is responsible for providing an invitation list, and for disseminating the event.
- The local partner will print banners and other materials to be handed out;
- Suggestion and introduction to local research institutions for the technical visit.
- Eventual help with local authorities in indications of hotels, and visa applications if necessary.

VI. Budget and cost sharing
In general, FAPESP will cover all the international travel and accommodation costs of the delegation from the State of Sao Paulo, and the local partner will cover costs related to the local event organisation (usually coffee-breaks, water for the speakers and venue).

The arrangements for the cost sharing are subject to negotiation in line with FAPESP financing rules.

VII. Primary ingredients in a successful meeting:

- Meeting should be agreed at least six months to one year in advance
- Invitations should be sent out at least three months in advance;
- Exciting speakers able to convey their enthusiasm for their discipline to non-experts;
- Informal atmosphere (breaks down disciplinary boundaries, facilitates discussions);
- Sufficient time for formal (during the sessions) and informal discussions;
- The Organising Committee is responsible for the scientific content;
- Organising Committee members need to communicate well.

2. Work plan and division of responsibilities

Abbreviations
DC – Scientific Director and advisors/CADs
GC EP – Communication Management – Events Team
GC DG – Communication Management – Design Team
GC Com – Communication Management – Communication Team
GCP – Research Collaborations Management
GI – Innovation Management
Partner – host institution

Work plan proposal – to be negotiated with the parties at each FAPESP Week

Email

Dear XX

I trust this message finds you well.

The São Paulo State Research Foundation (FAPESP) hopes to host a FAPESP Week XX, in CITY, on DATES. FAPESP Week has the objective of creating new opportunities for scientific and technological cooperation between researchers from the State of Sao Paulo and the COUNTRY/REGION.

The FAPESP Week Symposium series has been creating opportunities and facilitating research collaboration between researchers in the state of São Paulo, Brazil and colleagues around the world since 2011. 19 FAPESP Weeks have been held so far (http://fapesp.br/fapespweek/).

Each FAPESP Week brings together scientists from São Paulo Brazil, and colleagues from the target region, in academic sessions with presentations and debate about advanced scientific results relevant to the regions and prone to stimulate research collaboration. The aim of the event is to attract other researchers to engage and use the current funding opportunities to collaborate further.

The audience of FAPESP Week XX is comprised of researchers in all areas of science, research funders, representatives of scientific societies, academies, companies and policymakers in the science and innovation field.

As such, we request help your help and partnership to co-host the event. We would also request that the university indicate someone for local contact.

I look forward to the prospect of you speaking at our meeting.

Please advise me at your earliest convenience, of your agreement which this partnership.

Sincerely yours,

President
São Paulo Research Foundation - FAPESP
5.b. Communications: Invitation for speakers

Here it is a suggestion of an invitation letter.

Subject: invitation to speak at FAPESP Week XX, DATE

Dear Prof JOHN,

I’m honoured to invite you to speak at FAPESP Week XX, to be held at the VENUE, in CITY, on DATES. São Paulo Research Foundation – FAPESP – is the research council for the State of São Paulo, in Brazil. FAPESP Week has the objective of creating new opportunities for scientific and technological cooperation between researchers from the State of Sao Paulo and the COUNTRY/REGION.

FAPESP Week XX will be hosted by the PARTNER in CITY and will cover a range of scientific themes such as LIST THEMESE. I would be pleased to have you present your most impactful research projects, in a 20-minute presentation in the panel that will discuss the theme “NAME PANEL”, planned to be held on DATE.

I look forward to the prospect of you speaking at our meeting. Please advise me at your earliest convenience, of your availability.

Sincerely yours,

Prof
President
São Paulo Research Foundation – FAPESP

Prof. XXXXXXXXXXXXXXXXXXX

Partner

5.c. Communications: Suggestions for Terms of References for Speakers

Context

The FAPESP Week Symposium series has been creating opportunities and facilitating research collaboration between researchers in the state of São Paulo, Brazil and colleagues around the world since 2011, with 19 FAPESP Weeks having been held so far (http://fapesp.br/fapespweek/).

Each FAPESP Week brings together scientists from São Paulo Brazil, and colleagues from the target region, in academic sessions with presentations and debate about advanced scientific results relevant to the regions and prone to stimulate research collaboration.
We look forward to hearing examples of a successful cooperation. The aim of the event is to attract other researchers to engage and use the current funding opportunities to collaborate further. If you have faced difficulties or hurdles in the bilateral cooperation, we would ways in which you have overcome them and the positive results from your research.

Audience

The audience of FAPESP Week XX is comprised of researchers in all areas of science, research funders, representatives of scientific societies, academies, companies and policymakers in the science and innovation field.

Your Presentation

You are expected to present your research area, giving reference to scientific projects by yourself and other colleagues. At the end of your presentation, the audience will know:
   a. What is state-of-the-art in the field;
   b. Challenges that have been addressed recently by your research;
   c. Future challenges.

Format:

Scientific Panels:
   – 2 speakers from Sao Paulo and 2 speakers from the host country.
   – 15 minute presentation each with Power Point slides (no more than 10 slides please).
   – 25 minutes for Questions and Answers after presentations.

Roundtables
   – 12 minute presentation each without Power Point slides
   – 25 minutes for Questions and Answers after presentations.

I look forward to the prospect of you speaking at our meeting.
Please advise me at your earliest convenience, of your agreement which this partnership.

Sincerely yours,
Prof. XXXXXXXXXXXXXXXXXXXX
President
São Paulo Research Foundation – FAPESP

</thead>
<tbody>
<tr>
<td>Please provide a short summary of your poster. This should be a review-like abstract of approximately 250 words, avoiding or explaining all jargon, including a list of further references and/or web addresses for further reading (please send on separate sheet if necessary)</td>
</tr>
<tr>
<td>Please bring your poster 0,90mx0,90m</td>
</tr>
</tbody>
</table>

8. Payment

Payment for FAPESP is linked to a researcher in São Paulo who submits a proposal on FAPESP’s SAGe platform (www.fapesp.br/sage) and should follow the instructions on https://fapesp.br/auxilios/organizacao; 1.1) Tipos de Reunião; b) Reunião científica de interesse para o desenvolvimento científico e tecnológico do estado de São Paulo, realizada em outros estados do país.
9. Good Practices

- **Audience:** due to the program’s interdisciplinary nature, FAPESP Week's biggest challenge is to have a high-quality audience throughout the event. At the same time, the responsibility of identifying and calling the public is the responsibility of the partner. In this case, the best strategy is to identify more than one local partner and have institutional involvement from funding agencies, scientific societies and/or university associations/networks, that is, partners with a wide, varied and diverse public.

- **Opportunity for collaborative research:** FAPESP Week organized in a country where there is no agreement with the local agency, scheduled calls or specific funding opportunities is unlikely to have good results or results. Linking FAPESP Week to a broad call that will be launched guarantees public and interest.

- **Foreign consulates:** Foreign governments with representation in Brazil can help build networks and contacts or publicize the event.

- **Brazil’s Ministry of Foreign Affairs (Itamaraty) – partnership:** Science and innovation attachés from local consulates can be a resource to identify local partners. Involve an Ambassador at the opening of the event (local authority).

- **Brazil’s Ministry of Foreign Affairs (Itamaraty) – cocktail party:** Consulates and Embassies may be interested in getting involved in the event, but they rarely have their own resources. Cocktail parties in these settings are generally covered by FAPESP, including payment of local employees who work overtime for the event. **FAPESP cannot pay for alcoholic beverages.**

- **Delegation from São Paulo:** Speakers must be informed that their presence is requested throughout the event, even in panels or technical visits that are not in their scientific area. Participation is important for the event and for the accountability of the per diems.

- **Delegation from São Paulo:** in addition to researchers, we would like to include representatives from the international offices of São Paulo universities / research institutes in the FAPESP Week entourage, so that they can represent their universities institutionally and build bilateral partnerships.

- **Payments abroad:** to facilitate payment procedures, ideally, FAPESP’s contribution to expenses abroad (bus rental, coffee-breaks, cocktails, room rental, etc.) should be carried out by a partner, that is, that the services be contracted by a partner through transfer from FAPESP to “costs of organizing a scientific event”. **FAPESP cannot pay for alcoholic beverages.**

- **Tickets and per diems:** as of May/23, the administration in FAPESP began to interpret Ordinance PR94/2022 (https://fapesp.br/15786/portaria-pr-no-94) and other items in PR35/2020 (https://fapesp.br/14018/portaria-pr-no-35-texto-compilado) in such that it cannot buy tickets and per diems for researchers abroad. Check which speakers can have their ticket and per diem covered by FAPESP, and which must be through the project.

- **Visa:** Visas are the responsibility of each individual traveller. FAPESP will help wherever possible.
